## SUMMARY

Full Stack Developer with 3 years of experience in designing, developing, and deploying web applications. Skilled in TypeScript, React, Next.js, Node.js, Express, Nest.js, REST APIs, and database integration. Experience working with authentication, payments, and role-based systems in real-world projects. Develops AI-powered web applications, including LLM-based features, with a focus on building scalable and maintainable software solutions.

## Core Competencies:

Full-Stack Web Development, AI-Powered & LLM-Integrated Applications, TypeScript, React.js, Node.js, CI/CD, Payments & RBAC, Technical Leadership

## PROFESSIONAL EXPERIENCE

### Full Stack Developer and Programming Instructor

Fanaven Technology - [fanaven.com](https://fanaven.com)

Jan 2026 – Present | On-Site

- **Development of Web & Mobile Applications** using Node.js, React.js, Next.js, TypeScript, t React Native, Docker, PostgreSQL and, ...
- **Built backend APIs**, authentication systems, and role-based access control for real-world projects.
- **Implemented payment** and subscription features in project-based applications.
- **Collaborated in Agile-style** development and version control using Git & GitHub.
- **Taught programming classes** covering JavaScript, React, backend fundamentals, and web development best practices.
- **Mentored junior developers** and interns, guiding them through project development, debugging, and code reviews.

### Full Stack Developer

Webify Company, Kabul

Aug 2025 – Dec 2025 | On Site

- **Developed and maintained** full-stack web applications using React, Node.js, Laravel, and REST APIs.
- **Worked on multitenant** application features, including tenant-based data isolation, role-based access control, and dynamic configurations.
- **Integrated databases** and optimized queries to support multiple tenants efficiently.
- **Collaborated** with team members using Git and Agile-style workflows.
- **Contributed** to building reusable components and improving overall code quality.

### Frontend Developer

LightCode Organization, Kabul

Dec 2024 – Aug 2025 | On-site

- **Developed responsive** and user-friendly web interfaces using HTML, CSS, JavaScript, and React.
- **Collaborated** with backend developers to integrate APIs and dynamic data into the frontend.
- **Implemented modern UI/UX** designs, ensuring cross-browser and device compatibility.
- **Optimized website performance** and loading speed for better user experience.

## TECHNICAL SKILLS

### Programming Languages:

Node.js JavaScript TypeScript Python

### Frameworks & Libraries:

React.js Next.js Node.js NestJS Express.js React Native

### Databases & Storage:

PostgreSQL MongoDB MySQL Redis

### Cloud & DevOps:

AWS CI/CD Docker Git GitHub Actions

### Architecture & Methods:

RESTful APIs GraphQL Clean Architecture Design Patterns Object-Oriented Programming Functional Programming

## LANGUAGES

Dari	Native
English	Fluent (C1)
German	Basic (A2)

## EDUCATION

### High School

Dana High School - Present

## KEY PROJECTS

### •Bamyan Entertainment

- Collaborated in a team to develop a dynamic entertainment platform using Next.js, Tailwind CSS, Laravel, REST API, and MySQL.
- Implemented key features including Stripe payment integration, booking system, and an admin dashboard for efficient content and user management.

Stripe Payment Booking System REST API Integration Admin Dashboard
